

AILA GRACE ALQUIZA

PROFILE

Resourceful and adaptable Virtual Assistant with a strong work ethic and commitment to excellence. Proficient in managing schedules, organizing meetings, and facilitating communication using various software tools. Thrives in dynamic environments, quickly learning new processes and working independently.

WORK EXPERIENCE

Research and Data Specialist

CB Land LLC

December 2024 to May 2026 (1year, 6months)

- Conduct underwriting reviews to assess the value and risk of distressed property leads.
- Perform skip tracing to locate owners, heirs, and related parties of unclaimed or tax-delinquent properties.
- Review property records, deeds, liens, and tax histories to verify ownership and recovery potential.
- Qualify and categorize leads based on documentation, property status, and market data.
- Research state and county databases for assets surrendered to the state.
- Prepare data reports to support real estate recovery decisions.

General Virtual Assistant

Gokce Capital LLC

February 2023 to December 2024 (2 year, 2months)

Middle Office Tasks

(Support and coordinate core business processes and deal execution)

- Property Due Diligence & Research: Conduct thorough evaluations of potential property acquisitions by verifying ownership details, legal status, and financial obligations. Identify liens, back taxes, and title concerns using Assessor websites, GIS mapping systems, tax portals, and lien search tools. Communicate with county departments to ensure record accuracy.
- Perform detailed property comparables (comps) research using Zillow: Analyze recent sales, apply filters by lot size and location, and compile findings to estimate accurate market values for acquisition decisions.
- Loan Management: Monitor payments through GeekPay, identify delinquencies, default loans if needed, and adjust due dates as necessary for owner-financed properties.

- Prepare and submit property deeds, purchase contracts, and loan documents for recording via Simplifile, ensuring compliance with county requirements.
- Handle end-to-end owner financing setup: Prepare contracts, confirm buyer payment methods, send payment instructions, and verify receipt of document fees and down payments.

Front Office Tasks

(Direct client and prospect interactions, sales, and marketing)

- Community Outreach: Distribute informational letters to local residents, notifying them of available properties for sale in the area.
- Website Management: Update and maintain property listings on the company website to ensure accurate, attractive presentations for potential buyers.
- Lead Management: Create and manage tickets for acquisition leads (property owners looking to sell) and sales leads (buyers interested in purchasing).
- Customer Service Engagement: Handle inbound calls from prospective buyers, provide property information, and facilitate the sales process.

Back Office Tasks

(Internal support, accounting, record-keeping, and compliance)

- Categorize daily company expenses in QuickBooks: Ensure accurate and up-to-date financial records by tracking and classifying expenses daily.
- Updating outdated information in the Wiki or runbook: Maintain accurate internal documentation to prevent process discrepancies and support team consistency.
- Managed site assessment logistics: Coordinate scheduling of perc tests by certified soil scientists to support due diligence and property development decisions.

Admin Tasks

(General administrative and operational support)

- Visual Content Creation: Create and enhance property images using Adobe software for use in online listings and marketing materials.
- Maintain direct communication with county offices: Make calls and send emails as needed to verify property data, resolve questions, and ensure paperwork is complete.
- General record-keeping and process tracking: Support the team by ensuring tasks, records, and documentation are properly filed and organized for easy access.

Technical Support Representative

VXI GLOBAL DAVAO

December 2021 to December 2022 (1year)

- Diagnose and resolve technical problems by analyzing service issues, utilizing mechanized systems to process trouble reports, and coordinating with technicians and vendors as needed

- Maintained a 100% client satisfaction rating and provided resolution to technical and billing matters.
- Identify opportunities to promote additional products and services during customer interactions, contributing to sales goals.
